Subject: **FOR REVIEW: Revised Draft Emergency Response Guidance for NAHB**

Nancy,
You'll recall from last month, we've been talking with NAHB about whether we could waive lead RRP requirements in emergency situations, particularly in light of recent natural disasters. We've been working on updating some guidance for NAHB. Some of the information in the attachment is on our website, however, we're proposing to add a new Q&A (see p. 4); the document includes specific guidance for natural disasters and non-emergency renovations.

This document has been reviewed/cleared by OGC and we'd like to share it with NAHB. Please let me know if you have any concerns/questions. Thanks.

Tanya
